

**Monumental Inscriptions in
The Parish of
Purley on Thames**

Part 6

Miscellaneous Memorials and Index

Project Purley Publication 32

June 2011

Monumental Inscriptions in the Parish of Purley on Thames

Introduction

This booklet provides an index to Monumental Inscriptions in the Purley on Thames. They are of three types:-

- Inscriptions on headstones above burials
- Inscriptions above cremation burials
- Plaques and tablets in other locations

The MIs themselves are covered in a series of booklets as follows:

- Part 1 - Memorials in Old Churchyard at St Mary's Church (PP16)
- Part 2 - Memorials in New Churchyard at St Mary's Church (PP14)
- Part 3 - Attached Memorials at St Mary's Church (PP3)
- Part 4 - Cremation Memorials at St Mary's Church (PP17)
- Part 5 - Memorials in Goosecroft Cemetery (PP31)
- Part 6 - Miscellaneous Memorials and Index (PP32)

The Numbering System - Plots

In the Parish Registers burial plots are numbered according to the plan drawn up by Mr Keep in 1934. This has been extended since and remained in use until the graveyard was full in 1999. Inscriptions on grave stones use this numbering system, attached memorials have been allocated numbers in the 400 series to be compatible.

In the Goosecroft Cemetery, plots are numbered prefixed by an area number. Initially burial plots are prefixed A and Cremation plots prefixed B. Sections C and D have been reserved but not used yet. Further areas may be allocated when the cemetery expands into Lower Goosecroft when the present areas are full.

There are also a number of inscriptions and memorials in other parts of the parish. These have been numbered arbitrarily and prefixed Z

The Numbering System - Individuals

In addition individual entries in the Burial Registers are also numbered. In the current register, which dates from 1985; and in the previous register which was in use from 1813 to 1985; the entries have printed numbers. For earlier registers the burial entries have been numbered sequentially. To avoid confusion each entry number has had a multiple of 1000 added to it to indicate the register.

The full scheme is:-

- 1001-1034 Bishop's Transcripts 1607-1642
- 2001-2276 Burials 1662-1773
- 3001-3137 Burials 1773-1812
- 4001-4692 Burials 1813-1985
- 5001-5999 Current Register 1985-2000
- 6001-6999 Names commemorated on MI but not in a Register
- 7001-7999 Burials and Cremations - Gooscroft 1999+
- 8001-8999 Other names on MI

These reference numbers are shown in the index.

Recording Conventions

All personal names forming part of an inscription are given in upper case. Other text on inscriptions is given in lower case regardless of what is on the MI. All quotations are in lower case with quotation marks.

No attempt is made to indicate lineation as this is not regarded as useful information. Otherwise the transcription is as faithful to the original as possible.

Dates are given in the numeric form day/ month/ year eg 25th March 1780 is 25/3/1780.

Where a headstone has never been known to exist but the name of the occupants of a plot are known, this information is given in the form of a note.

Notes also will provide cross-references to other MIs and, in some cases, additional biographical information.

The Maps

The churchyard maps are based on the plan drawn up by Mr Keep in 1934. This had been updated by successive rectors to record subsequent burial plots, however scale was not preserved correctly.

For most maps there are two versions, first a pre-1981 version showing the church as it then was and all the burial plot; second a 2000 version showing only existing headstones. The 2000 version shows layout of paths and the church as rebuilt in 1983 and modified subsequently. The Garden of Remembrance is shown together with the new location of several of the gravestones. The new churchyard was resurveyed and many of the graves in the north east sector have been repositioned.

The plan of the enlarged church is based upon the drawings of Richard Perkins and Partners, the architects for the 1983 extension.

The plans for Gooscroft are as the official Parish Council record.

Acknowledgements

While the basis of this work are the transcriptions undertaken by John Chapman over a period of several years, much of the work had been duplicated by other members of

Project Purley and this has been used to cross check the text.

For inscriptions which did not survive the rebuilding in 1870, credit is due to Elias Ashmole who visited the church in 1661 and to Mrs Becker who visited shortly before the rebuilding.

Mrs L H Chambers of St Albans visited the churchyard on 12th May 1943 and recorded all the inscriptions extant at that time. It is fortunate that she did so as many of these inscriptions are no longer legible.

The notes are based on research from many members of Project Purley, but especially of that of Mrs Jean Debney.

The assistance of the following is also acknowledged:-

The Commonwealth War Graves Commission

The British Library, Dept Manuscripts

The Berkshire Record Office

Reading Central Library

Finally the considerable assistance of the former rector, the Reverend David Evans must also be acknowledged.

Miscellaneous Memorials

These memorials are scattered around the parish and are numbered arbitrarily prefixed by Z

The Index

The table below provides an index to the memorials and is in alphabetical order:-

Bur ref	surname	forenames	born	died	MI Ref
