

Pangbourne Heritage Group

Index of Memories

R600001 19/1/2018

This index contains entries generated by Pangbourne Heritage Group to record memories, snippets and articles about people, events, business and locations in Pangbourne.

It is organized by street name, then postal address within street and then date.

The list of street names was taken from the 1982 Electoral register so a few streets are out of order and added to the end. As each street has a two digit number and each address has a six figure reference made up of two digits for the street and four digits for the address. Where there is no street number allocated by the Post Office then numbers over 500 are allocated. Where the specific address is not known a number over 1000 is used.
